11 SCORING

11.1 *Daily Scoring*

For the daily results, boats will be scored in accordance with Appendix A and the "Series" shall be defined as all races started in which at least one boat finishes on that day.

11.2 *Series Scoring*

Each Series Fall, Winter, and Spring will be scored as well as the overall series. Participation in at least 50% of official races sailed is required to qualify for a series. To qualify for the season, a skipper must sail at least 50% of the races sailed during the season. All races started must be counted except that a boat which capsizes or breaks down as a result of a foul may have its score eliminated if its protest is sustained should the Race Committee so elect under US Sailing Rule 62.

11.3 *Calculating Series Percentages*

1. For each race started on a particular race day, a skipper has a PS (Points Scored), which is his finishing position, and a PPR (Possible Points for that Race) which is the maximum number of starters in any race during that day plus one point, under the low-point system.
2. At the end of a Series, add a skipper's PSs and separately add their PPRs to get the Series totals. From the total PS, deduct one point for each race started to get the skipper's CPS (Corrected Points Scored).
3. Divide the CPS by the total PPR to get a low percentage. Subtract this from 1.000 to arrive at the skipper's high series percentage.

11.4 *Race Committee Duty* - For purposes of qualification, for both a series and a season, a participant who is acting as, or assisting the Race Committee will be counted as having sailed on that day in each of the races sailed. The participant's score will not be affected.
